

loyl.io logo ar ai page er sort tile ans
descreption

offer title.

scaner type stamp
or scrch type

if its a stamp type offer genaretor
then show setting where
marchent describe how meny
stamp they want to add

offer expire setting
set time how much
time the off will go.

creat offer button

here the place where the qr code
with show when the offer created
and loading end

or if marchent chose scrach type
offer genaret then show multiple
row show they add multiple small
ingradient. when customer scan qr
code then they see a scratch option
insted of stamp option. they scratch
it and random offer they get.

after presing the creat offer button
the loading get startes and under
thisbutton a box should appear and
the genareted qr code show
